

"Went in for a facial treatment. The experience was exceptional... I could feel the difference. I felt firmer in the areas where we worked on my face. I came away with a clean face, no oils, no greasy moisturizers, just a clean healthy feeling face, that felt tighter and firmer." - Kelly G.

A FEELING LIKE NONE OTHER!

Margarita Aburto Face and Body Herbal-Ice Sculpting products are formulated from only the highest quality 100% natural herbs and plant materials according to very specific formulas and manufacturing techniques developed over the past 35 years.

From the excess fat in your cheeks and 'double-chin' to the loose un-toned pockets of skin around your eyes and forehead - the sculpting power of Margarita Aburto products will tighten, regenerate and restore your skin's natural beauty and vitality. All without the use of harsh chemicals, injections or surgery.

"It was a one of a kind experience..."
- Joseph C.

We would like every visit you make to our Center to be relaxing, refreshing and rejuvenating. Once you arrive please let us know if there is anything we can do to better serve your needs.

Thank you,

"My experience was really wonderful. Not only because it really worked, but the person was really great at her job and made me feel wonderful and confident about myself."
- Nyla G.

During the Facial Study process you and your consultant will assess and evaluate which areas of your face will be best to work on.

Face and Body Herbal-Ice Sculpting Massage increases your body's fat absorption capacity. There are more than 62 ingredients (most of which are herbs, leaves, roots, bark, flowers, natural oils and essences) that stimulate the development and production of healthy new skin cells.

"The results were amazing - immediate!"
- Gia H.

"Wow I loved the way her hands felt on my face! The results were amazing! My face feels softer and thinner!" - Quetzali A.

People always ask, "Is it cold?" The best answer is, "Yes. But it is not unpleasant or uncomfortable." It is the interaction of the herbal essences in the Margarita Aburto lotion as they are massaged into the surface of your skin at very cold temperatures, which stimulates your body to respond as it does.

During your Herbal-Ice Sculpting Massage the skin on your face and neck will be nourished and invigorated - both at the same time. These areas will be cleaned, moisturized and then treated to an herbal astringent lotion bath while being ice-massaged. As your session comes to a conclusion, your face will be gently cleansed and prepared for a cool, relaxing, hydrating towel wrap.

Every person has different needs and different reasons for enjoying Face and Body Herbal-Ice Sculpting Massage. If you're ready to sculpt your cheeks, neck, forehead or 'double-chin' your Facial Consultant will design a program to meet your exact needs.

Both men and women benefit from Margarita Aburto Face and Body Herbal-Ice Sculpting Massage therapy. For several decades these 100% natural products have been delivering results to people in both Mexico and the United States without the use of harsh chemicals, electro therapy, toxic injections or surgery.

"I had never had a facial before... and I loved it! I definitely want to come back because I could see the difference in my skin right away!" - Yesenia G.
